Problem solving	*	*	*	*	*	*	*

Learning Objective: To introduce pupils to problem solving.

Description: Pupils have to work their way around a purpose built course that incorporates a range of problems and puzzles. This activity targets teamwork, leadership and communication skills. There is often more than one way to proceed so teams need to quickly devise a decision making process. Co-operation not confrontation is the key to success.

KNOWLEDGE	SAFETY	SKILLS
<ul style="list-style-type: none"> To recognise the importance of making a plan. To recognise the importance of co-operation and collaboration in a team situation. To recognise the importance for clear decision-making. Keywords : co-operation, spotters collaboration 	<ul style="list-style-type: none"> Recognising activity boundaries and safety areas.
